

# HAMPTON

*Kentucky Bluegrass*

## DESCRIPTION

Nicknamed "The Root Monster" due to its standout deep and fibrous root production, Hampton is a favorite of elite turfgrass sod producers and rated near the top in shear strength across multiple blends, mixtures and species at Cornell University. Hampton also adds terrific winter color, excellent spring green up and seedling vigor, drought tolerance (% living ground cover in summer, wilting, summer density, and dormancy) and traffic performance with the highest rated horizontal shoot-leaf growth habit to sports, golf and showcase lawns as well. Additionally, Hampton is ranked #1 under Saline irrigation in New Mexico.

## APPLICATIONS

Golf, Sports and Lawn Turf. Tolerates low height of cut.

## FEATURES & BENEFITS

Wear Tolerant, Heat and Drought Use, Low Mow Tolerant, Salt Tolerant.

## AREA OF ADAPTATION

Cool-season zone and upper Transition zone.

## SEEDS PER POUND (APPROXIMATE)

## SEEDING RATE (POUNDS/ACRE)

90-135 Pounds
