

# Triple Star Perennial Ryegrass Blend

This blend of elite perennial ryegrasses is an excellent choice for overseeding fairways, sports fields and parks & open space as well as overseeding existing lawns. The entire genetics package tolerates high wear and traffic levels across a wide range of climates. Adapted to mowing heights as low as 3/16 inch, it has rapid establishment to out-compete Poa annua and other weeds. Champion contains very high levels of viable endophyte. Due to these very high endophyte levels, the blend exhibits enhanced resistance to a number of important insects including: billbugs, sod webworms, chinch bugs, armyworms and aphids. The presence of the endophyte also contributes to improved stress tolerance with better summer survival, enhanced fall recovery and reduced weed invasion.

## Characteristics:

- Fast germination
- Dark green & fine textured
- High levels of endophytes
- Superior disease resistance

## Light/Soil Requirements:

- Performs best in full sun or light shade
- Performs well on many soil types

## Seeding Rate:

- Seed @ 5-6 lbs per 1,000 sq ft
- Overseed @ 2-3 lbs per 1,000 sq ft

## Establishment Rate:

- Germinates in 7-10 days under ideal conditions
- Fully establishes in one growing season

## Formulation

**100% Turf-Type Perennial Ryegrass**  
(featuring Elite Salt Tolerant and Gray Leaf Spot resistant varieties)

**Available only in:**  
**5# Laminated Poly**  
 (10-5# = 50# Case)  
**25# Poly Woven**  
**50# Poly Woven**
