

# Triathlawn Blend

An excellent blend of high endophyte, rhizome-rich turf-type tall fescues. Deep rooted and winter hardy, tall fescues have the ability to access water from deeper soil depths than Kentucky bluegrass or perennial ryegrass – assuming adequate soil prep. Exhibits good disease and pest resistance that survives on many soil types in full sun or light shade. It is highly stress tolerant and requires minimal care. High quality tall fescue with unsurpassed rhizome capability. Forms a tough, durable turf that easily tolerates constant use, heat and drought.

## Characteristics:

- Endophyte-enhanced
- Dark green color
- Medium coarse texture

## Light/Soil Requirements:

- Grows equally well in sun or shade
- Performs well on many soil types

## Seeding Rate:

- Seed @ 8-10 lbs per 1,000 sq ft
- Overseed @ 4-5 lbs per 1,000 sq ft

## Establishment Rate:

- Germinates in 10 to 14 days with proper moisture
- Forms a dense turf in 8 to 10 weeks

## Formulation

100% Turf-Type Tall Fescue (featuring Elite Rhizome-Rich varieties)

**Available only in:**  
**5# Laminated Poly**  
 (10-5# = 50# Case)  
**25# Poly Woven**  
**50# Poly Woven**
