

SHOWTIME

Turf Type Perennial Ryegrass

DESCRIPTION

Showtime, derived from a cold-tolerant collection that was crossed with gray leaf spot survivors from North Carolina. It has shown very good winter color retention and cold weather performance. Showtime is ideal for all perennial ryegrass applications including overseeding damaged perennial ryegrass turf or fall overseeding of bermudagrass turf in southern climates.

APPLICATIONS

Golf, Sports, Sod Production, & Lawn Turf

GEOGRAPHICAL ADAPTATION

Adapted to the cool season, transition zones, winter overseeding Bermuda turf and arid regions with irrigation.

PRODUCTION AREAS

Pacific North West, Upper Midwest

FEATURES & BENEFITS

- Cold Tolerant
- Excellent turf quality
- Excellent gray leaf spot tolerance
- Quicker Establishment

SEEDING RATE (POUNDS/ACRE)

200 - 700 Pounds
